

Temp Night Shift Factory Operative Crendon Timber Engineering, Bridgend

Crendon Timber Engineering is a leading designer and manufacturer of engineered timber products. Operating from eight sites around the UK, its Timber Engineering business designs and manufactures Roof Trusses and Engineered Floors.

Role

Due to business growth, we are now in the position to recruit a night shift team. We are looking for Factory Operatives to join our team in Bridgend, to assist in the overall smooth running of Timber Engineering Production. This is a temporary role where you will be working 11 hours per night (5.00pm to 4.30am with a 30 minute break) over four days, Monday to Thursday.

Who we are looking for?

As our ideal Factory Operative you will be self-motivated, confident and capable of working under pressure in order to meet deadlines. You will be a self-starter that is able to build effective relationships with the rest of the night shift team members. Previous experience of working within a timber engineering environment would be a bonus however is not essential as full training will be provided.

Benefits

These include:

- Salary of £22,541 per annum (includes a night shift premium)
- 4 day working week
- 30 days holiday per year, including Bank Holidays, increasing to 33 following 1 year's full service by 1 January in any given year.
- Contributory Stakeholder Pension Scheme
- Life Insurance

Apply

We are looking for an organised and forward thinking candidate. If you feel you have the skills and experience, please send your CV along with a covering letter to Janine Calcutt at careers@crendon.co.uk.
