

## Senior Designer, Crendon Timber Engineering, Exeter

Crendon Timber Engineering is a leading designer and manufacturer of engineered timber products. Operating from eight sites around the UK, its Timber Engineering business designs and manufactures Roof Trusses and Engineered Floors.

An exciting opportunity has become available within the Design department for an individual to join a small vibrant team who are passionate about exceeding our customer's expectations and providing exceptional service.

You will use your know-how, experience and software skills to produce detailed and accurate designs, ensuring customers, both internally and externally, appreciate your flair. Your designs will make the most efficient use of labour and material resources, and be delivered in full and on time. Resolving any potential issues, using initiative to overcome challenges, you will take pride in the positive outcomes that are achieved.

For those who wish to progress, this role offers opportunity to develop and evolve within a business which prides itself on staff development.

At Crendon we know that our people are the key to our success. We strive to have the very best people, who are motivated and inspired to provide the best possible service every day which is why all our staff are provided with a reward package that recognises their hard work and commitment.

We work hard to continuously improve our exciting reward package, taking into consideration the view of every single employee to make sure we remain an industry leader. **Some** of the highlights of the fantastic benefits and rewards you can expect include a competitive salary, reward platform and a great annual leave allowance. For more information on the full suite of benefits we offer please visit [www.crendon.co.uk](http://www.crendon.co.uk).

In order to apply for this role or to get more information, please email your CV to [careers@crendon.co.uk](mailto:careers@crendon.co.uk).
