About us

Since 1967, Crendon Timber Engineering has been at the forefront of our industry. With more than 12 sites across the UK – and continuing to expand – we manufacture high quality Timber Frame, Roof Trusses, Posi-Joists, and a wide range of engineered timber solutions. We're dedicated to supporting our customers, growing our team and giving back to local communities through charity partnerships.

What you'll be doing

Some of your responsibilities will include:

- Maintain Power BI App's.
- Create and ensure all Power BI enhancements to current App's.
- Development new Power BI App's according to business needs.
- Stock valuation for month end.
- Control and input stock costs.
- Prepare branch monthly stock spreadsheet templates.
- Generate monthly Cost of Sales journal and calculate price variance.
- Generate & review monthly order book.
- Generate & review monthly Average Selling Price calculations.

Skills required

- Excellent Excel & system skills including Power BI knowledge.
- Excellent communication skills & able to deal with a variety of people at different organisational levels.
- General accounting knowledge.

What do we offer?

We work hard to continuously improve our reward package, taking into consideration the view of every single employee to make sure we remain an industry leader. Some of the highlights of the fantastic benefits and rewards you can expect include:

- Competitive bonus scheme.
- Comprehensive training opportunities – potential to progress within our organisation.
